Who we are

# A coffee house built on one idea: great coffee makes every moment brighter.

Sigiria Coffee House is a coffee house and coffee brand serving 100% Arabica coffee. Across our counter we pour espresso, hand-brewed and iced coffee alongside fresh bakes, and we offer our three house roasts, Signature Blend, House Blend and Dark Roast, to take home, whole bean or ground to order.

Our guests range from early commuters to teams who hold their meetings over a second pot. For each of them we aim for the same thing: an excellent cup, served warmly, in a space that makes people want to stay. Beyond the café, we supply offices and events with coffee and create gift sets for companies that want to thank their clients and teams.

Our seal, two coffee beans held together like a heart and rising like the sun, sums up the brand. It is the brighter moment we want every guest to feel, and it appears on every cup, bag and gift we make.

Our vision

## To brighten every day with great coffee, served with heart.

Our mission

## To serve exceptional Arabica coffee with warmth and care, and to make every visit, bag and gift a brighter moment.

Our values

### Quality in every cup

We choose, brew and pour with care, and we taste what we serve.

### Warmth in every welcome

A coffee house is about people. Everyone should leave a little brighter than they came in.

### Integrity from bean to cup

Fair dealing with the people who grow our coffee, and straight answers for our guests.

### Community at our table

Room for meetings, friendships and quiet mornings alike.

Our promise

## Every cup, bag and gift should leave someone a little brighter.

100% Arabica coffee, ground the right way for your brewer, and served with a warm welcome.

Great coffee, brighter moments.

Our brand

# Two beans, one heart.

The Sigiria seal shows two coffee beans held together like a heart, rising like the sun over green highlands. It comes in three finishes: full colour for light grounds, a reverse version for dark grounds, and a single-colour version for brass foil, embossing, laser engraving and embroidery.
